Target Sustainability

The Christchurch City Council Target Sustainability Services provide free support to help you become sustainable through reducing waste and being energy and water efficient. The type of support depends on the business and ranges from self help business Guides on the website through to tailored consultancy services.

HSNO

Hazardous Substance and New Organism Act

www.hasno.govt.nz

This is a dedicated HSNO website which explains how HSNO works and who is effected. The website also has information about all the various agencies that manage different aspects of the Act, including links to their web sites.

For information on the HSNO Act, regulations policy and administration contact ERMA

ERMA New Zealand

The Environmental Risk Management Authority (ERMA) is an independent body established under the HSNO Act. Its role is to assess the environmental and health risks posed by hazardous substances and new organisms and to place controls to make sure these are managed properly
